**Delivering performance
and value.**

The **JTNSW20HTCSL** is a compact ride-on trowel that delivers value and performance. A powerful Honda gasoline engine drives twin 4-blade rotors to a top speed of 138 RPM.

- **Gearboxes** utilize high quality bronze and steel composite gears for durability.
- **Low maintenance costs** are assured by the use of replacement bronze bushings and wear plates in the spider assemblies.
- **Easy access to the engine** and all service points simplifies routine service and maintenance.
- **Spray system** enables the operator to apply retardant chemicals evenly across the work area.
- **Powerful halogen lamps** – two forward facing and one rear facing - improve visibility while working at night.
- **TwinPitch Control** enables the operator to adjust the pitch of both rotors simultaneously – or independently.
- **Superior visibility** of the work area from the operator's position enables you to adjust to react to changing conditions.

Specifications:

Model	JTNSW20HTCSL
Petrol Engine	Air-Cooled Honda
kW (hp)	15.5 (20.8)
Blades per Rotor	4
Rotor Speed RPM	30-138
Path Width cm (in)	191 (75)
Fuel Capacity l (gal)	9.8 (2.6)
L x W x H cm (in)	195.6x104x131 (77x41x51)
Operating Weight kg (lbs.)	280 (616)
Optional Wheel Kits	EMRS1(2 wheel kit) EMRS2(4 wheel kit)
